

Autry Technology Center Connected Me to My Future

Picture yourself in your future and develop your career at Autry Technology Center

Brandon Beichler, a student in Graphic Arts at Autry Technology Center, dreams of someday working as a graphic artist for an advertising agency. He is well on his way...

After a tour of Autry, Brandon decided to spend part of his senior year learning Graphic Arts at Autry. Brandon graduated from Enid High in 2005 and is continuing the program as an adult student. He attends class at Autry in the mornings, works at a local print shop in the afternoon and attends classes at NOC in the evenings.

Brandon will enroll at OSU next fall and continue to study Graphic Design in Stillwater. He plans to graduate with his bachelor's degree in 2008. Receiving college credit for his work at Autry means Brandon will already have 32 hours to transfer into OSU—and he explains that this made it possible for him to consider getting his four year degree.

"Learning Graphic Arts at Autry is a great experience. I like that Mrs. Licklider allows us to focus on one subject and provides hands-on opportunities for us to learn," says Brandon. "The student organization SkillsUSA has helped me a lot, too. It has shown me how to get the right job through help with resume writing. It has also helped me learn how to talk to people and made me more confident."
